# LEZIONE TORQUATI

pipeline is not just a data flow pattern.

Pipeline is a container in a building block sense.

Pipeline doesn't exists at Runtime but exists
only a data parallel flow of nodes that behave
like a pipeline.

Semantic point of view:

L-workers   R-workers

A2A

shuffle

rigardi
dal punto
di viste
semantico

Pipeline of 2 building block:
From the semantic point of view is
similar to this:

MAP → REDUCE

REDUCE
